If at this moment, then, Italy should break into the arena, and launch her splendid army against Austria, it seems impossible that the dual monarchy can for many weeks withstand the pressure. The probability of a great disaster is accentuated by the fact that Italy will hardly open hostilities alone; Roumania is fully expected to synchronize her entrance into the campaign with that of Italy; and thus ringed about by Russia, Roumania, Serbia and Italy, Austria would either collapse or call in such huge German re-enforcements as would weaken the France-Belgian lines of the Kaiser and open the way for the crushing advance of the allies there.

The military effectiveness of the Russians under their Grand Duke Nicholas has been, to Germany, the most astonishing surprise of the war to date; and it is a good speculation that the failure to chop the Russians to pieces against the Carpathians is rated in Berlin as one of the most ominous signs displayed from the beginning of the war.

A DUTY TO OURSELVES

Not since the sinking of the Maine has the United States confronted so grave an international crisis as it does today.

Not since the affair of Venezuela has there been in this country so deep a regret for, earnest a wish to overcome, our deficiencies in military power and preparation.

A day may mean that we are that exactly as in their various directly involved in the greatest war that the world has ever seen.

THE ATTITUDE OF LONDON

London has not approved the tone of the President's speech in Philadelphia, and, seizing from it the expression that there is such a thing slur upon this country. It is derided in the music halls and plastered driven back. It was a thoroughly about the town, in a fashion highly offensive to this country.

Nothing can be gained by such a disposition of the British public and press. These are times in which mutual goodwill has need to be cultivated wherever there is seed and soil in which it has a chance to grow. No country's good sentiments are more important to Great Britain than the United States'.

Porters Treat Non-Contributors Like Poor White Trash.

To the Editor of THE TIMES: I noted in a recent paper what Robert r. Lincoln, ex-president of the Pullman ompany and chairman of the board of lirectors, had to say about the porters on the Pullman cars, before the Federal ommission on Industrial Relations.

I wish to call attention to the fact that the traveling public is compelled to "tip" the porters in self-defense, for when they do not "tip" them they are treated in an insulting manner. The porters are impolite and do not give respectful attention and are not really satisfied with a small "tip." The general understanding is that if you do not give them as much as a quarter, they reat you with contempt and make you feel as it you are "poor white trash" and have no right to be traveling on a

rullman.

This is all wrong and should be corrected. The company should be compelled to pay its porters living wages and forbid them to receive "tips." It will pay the company in the end, for more people would use the Pullman cars. I would like to know if it is the duty of the porter to shine the shoes of the passengers without a tip. I wonder how much Mr. Lincoln "tips" them to shine his shoes.

U. S. May Act Against BEAUTY CONTEST IS Editors Who Approved NARROWING DOWN Lusitania Slaughter Only About Dozen Entrants

Department of Justice officials are considering action against newspaper editors in the United States who approved the slaughter of non-combatants on the Lusitania. Such persons may be liable to a fine of \$5,000 and imprisonment for a term of five years or both.

Officials are considering whether papers which have been intemperate in approving the sinking of the vessel can be kept out of the mails under the provision of the penal code making it an offense to circulate "matter of a character intended to incite arson, murder or assassination." Some officials think the law might be so applied, but whether the Government at this time will seek to apply it is not disclosed

Another meeting of the judges in The Times' beauty contest is to be held this afternoon, and it is expected that the contest will have narrowed down to only a few beautiful Washington giris before the session ends. Although the judges have taken no one into their confidence regarding their work, it is understood that all photographs, except about a dozen, have been eliminated, and from this dozen the winner will be sclected

In order to give every girl a fair show, the closest scrutiny will be given the selected photographs, and a personal inspection of the entrant may be had in

ome instances. The standing of the judges in the artistic world will be recognized when their names are announced. Every point is to be taken into consideration in judging the face of an entrant, and the winner will have the satisfaction of knowing that she underwent a thorough test.

On the other hand, the losers, and es pecially the few who remained in the contest until the last, may take consolation in the fact that some slight defect, probably not discernible except to the artistic eye, prevented her from re ceiving the free journey which The Times will give the winner to the two expositions and Universal City, Cal. Students and graduates of the George Washington University are commencing to doubt the seriousness of the unemployment situation-at any day, the end of the Barnes-Roosevelt rate, as far as the teaching profession concerned. Dr. William Carl Ruediger.

the Teachers' College, announces that he constantly is receiving numerous requests from schools and colleges in the vicinity of Washington for dents and young graduates to fill po-sitions as teachers. The demand execds the supply, and Dean Ruediger has issued a formal statement urging students in the university who are de-sirous of teaching, whether registered n the Teachars' College or not, to me with him their applications.
